

Dear Madam,

Thank you for making it possible for me to speak at the forthcoming hearing.

As requested, here is a brief outline of the case that I hope to present.

In essence there are three points which seek to explain my total support for the Sedlescombe Neighbourhood Plan, & in particular my opposition to any building on the Street Farm site.

*1. Environmental*

The Street Farm site is part of an ANOB, not only offering superb vistas over the Wealden landscape but also providing an area in which abundant wildlife can thrive.

*2. Practical*

The Neighbourhood Plan fully meets the village's housing quota, without intruding into the Street Farm field in any way, i.e. there is no need to build on this site.

*3. Procedural*

The Sedlescombe Neighbourhood Plan is the product of some very thorough work by the Parish Council, the whole process has been characterised by extensive consultation in the village, and the outcome was that the Neighbourhood received over 88% support.

Yours faithfully,

Alan Olin
