Subject: Thé Vicarage Lad Robertsbridge

Dear Ms Poole,

I live at [REDACTED] opposite the Vicarage Land site.

I object to the building of new homes.

Access -how can adequate access to the site be achieved without altering the character and appearance of Fair Lane.

Flooding- an increase in run off from the developed site. The High street houses have a history of flooding already.

Highway safety - the narrow lane and single narrow pavement will exacerbate an existing highway safety issue with more vehicles using the road. Failure to safeguard the special character and appearance of the listed buildings in a conservation area of Fair Lane and the village- even the examiner has recognised that it is little more than a country lane.

Removal of trees, hedges, homes to sparrows and many other birds

Yours sincerely
Ivor Lewis.
