

**WILD BOAR FARMS
SCHEDULE OF ADDITIONAL LICENCE CONDITIONS
FOR DANGEROUS WILD ANIMALS
DANGEROUS WILD ANIMALS ACT 1976**

1. The Rother District Council must be provided with an up-to-date site plan and detailed layout plan of the area devoted to wild boar farming.
2. The detailed plan(s) should show clearly the position of access roads and footways, perimeter and safety fences, sties, breeding and isolation facilities.

3. Perimeter Fencing

Stock fencing must be buried/sunk to a depth of 300mm (1 foot) and be at least 1.35 metres (4 foot 6 inches) high. The fence must completely surround the enclosure containing the wild boar.

4. Electric Fencing

Electric fencing must be provided within the perimeter fencing.

5. Supervision

At least one person who holds a current firearms certificate and who is within a period of 15 minutes travelling time from the site must be nominated by the licensee to attend the site with a suitable firearm in the event of any wild boar escaping from the site.

Note: In the event that a nominated person uses a firearm to deal with any stray boar, they must do so in accordance with the terms and conditions stated on their firearms certificate.
