

### Legend

- SFRA Study Area
- 1% AEP Fluvial event plus 35%
- 1% AEP Fluvial event plus 45%
- 0.5% AEP Higher Central Tidal event (2115 EPOCH)
- 0.5% AEP Upper End Tidal event (2115 EPOCH)
- Flood Zone 2 (Proxy)

### Notes

The Environment Agency 2019 climate change guidance shows that for watercourses in the South East River Basin District the 35%, 45% and 105% allowances should be considered. This has been applied to the 100-year fluvial events. The Tidal 200-year event with uplifts for 2115 have been used to assess future tidal flood risk within Rother District. Where there are no models available Flood Zone 2 has been used to provide indicative information on the potential effects of climate change.
