

Legend

- SFRA Study Area
- Areas Benefitting From Defences

Notes

The Flood Map for Planning (Rivers and Sea) includes several layers of information one of which is areas benefiting from defences. This dataset shows those areas that benefit from the presence of defences in a 1 in 100 (1%) chance of flooding each year from rivers; or 1 in 200 (0.5 %) chance of flooding each year from the sea. If the defences were not there, these areas would flood in a 1 in 100 (1%)/ 1 in 200 (0.5 %) or larger flooding incident.

There are no Flood Storage areas within the Local Plan area.
